

Brittany Sanderson

I'm so excited to begin the 2009-2010 skating season by offering my coaching services to your skater. I just love skating and want to share my enthusiasm with new students. I have just finished my final level of coaching and am now qualified to coach all disciplines.

A little bit about me

I qualified as a Canskate coach last year and shadowed one of our club coaches, Janet Dawson in preparation to working independently as a fully qualified coach.

I have skated with SSSC since the age of 8 and completed my Gold Level in Dances. I have my Senior Silver skills and my Senior Silver Freeskate Levels. I hope to bring a lot of new ideas and fresh spirit to our Club!

Private Lessons

A private lesson usually consists of a 15 min lesson with your skater and coach only. During this time the coach will either give a Freeskate, Dance, or Skills lesson. You, as parents, must decide how many lessons your skater will receive weekly.

I will be charging \$8.00 per 15 minute lesson. I will bill you directly every 2 weeks and payment is due the following skating day.

Missed Lessons

If you know your skater will be missing a lesson please let me know so I can re-arrange my lesson plan, if you miss continuously without a phone call there will be a penalty, and you will be billed for your lessons missed. If more than three lessons are missed in a month period than I will charge you for the missed lessons until you contact me. I will assume your child will be present at lesson time unless you contact me.

You will be charged for coaching time for a Test or Competition day. This usually consists of a 15 min lesson charge, plus a meal, accommodation and mileage which is divided amongst the skaters I'm coaching that day. **Please talk directly to me about these expenses.**

As a courtesy, please do not talk to me during skating times. I have to concentrate on my skaters. Phone me and we can have a conversation about any concerns or questions you may have at a mutually agreeable time. I have an answering machine and I will return your call. .

If you choose to retain me as your coach I will meet with you to go over my expectations as a coach and yours as a parent. Setting goals is very important for skaters.

I look forward to a great skating season.
